

DETAILED ACTION

Response to Amendment

The Amendment, filed on March 27, 2008 has been entered and acknowledged by the Examiner.

The cancellation of claim 11 is acknowledged by the Examiner.

Claims 1-10 and 12-13 are pending in the instant application.

Allowable Subject Matter

Claims 1-10 and 12-13 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance.

Regarding Claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set fourth in Claim 1, and specifically comprising the limitation of " the free end of the further electrode has a distance of $(0.2 - 1) \times R_{\text{inner tube}}$ from the axis of the filament electrode, $R_{\text{inner tube}}$ being the inner radius of the discharge vessel in this section of the discharge vessel".

Regarding Claims 2-10 and 12-13, they are allowed for the reasons given in Claim 1 because of their dependency status on Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance". Any inquiry concerning this communication or earlier communications from the examiner should be directed to DONALD L. RALEIGH
